Story

WHY I BUILT ZIOU'S GYM

When I started going to the gym, I was like most beginners: motivated, but completely lost.

I had no idea which exercises to do.
I had no idea how to perform them correctly.
I had zero tracking of my sets, weights, and repetitions.

And inevitably... I quit. Discouraged.

THE BIRTH OF ZIOU'S GYM

I decided things had to change.

I built Ziou's Gym for MYSELF first.

An app that shows me the correct technique through video demonstrations for every exercise.

An app that tracks every set, every rep, every kilogram I lift.

An app that helps me train with purpose and stay consistent.

It completely changed how I train.

NOW IT'S FOR EVERYONE

Funding period

Jun 5 2026 - Jun 30 2026 (25 days)

Today, Ziou's Gym includes:

- ✓ 71+ guided exercises with video demonstrations
- ✓ Visual muscle targeting — see exactly what you are working
- ✓ Workout tracker — sets, reps, weights, history
- ✓ PPL, Full Body, 5×5 structured programs
- ✓ Custom workouts — build your own training
- ✓ Progress analytics — see your real results
- ✓ Nutrition plans by muscle group

I want everyone to be able to train with proper form, track their progress week after week, and see real results.

That is exactly what Ziou's Gym does.

WHY KICKSTARTER?

With your support, I can:

- Add more guided exercises with videos
- Develop AI-powered program suggestions
- Improve muscle tracking features
- Build an active fitness community
- Make the app available on iOS and Android

HEALTH DISCLAIMER

Ziou's Gym is a fitness tracking application designed to help users log workouts and learn proper exercise form through video demonstrations.

This app is NOT intended to:

- Diagnose, treat, cure, or prevent any medical condition
- Replace professional medical or fitness advice
- Guarantee specific fitness results

Always consult a qualified healthcare professional before starting any new exercise

program. Individual results may vary.

⚡ JOIN THE JOURNEY

You are not just buying an app.
You are supporting a project built from
real passion, for real athletes.

Stronger Everyday. 💪

Risks and challenges

The main risks for this project are related
to software development timelines and feature
implementation.

Ziou's Gym already exists and is fully
functional at ziougym.com. Your backing
helps me improve it and add new features.

In case of any delays, I will communicate
regularly with all backers through Kickstarter
updates and via email at infos@ziougym.com

HEALTH AND WELLNESS PRODUCT DISCLAIMER

Health and Wellness Product Disclaimer: This
project and its rewards are not a replacement
for medication, medical treatment, or a doctor's
examination. Kickstarter does not endorse or

verify the veracity of any claims made on project pages, and is not responsible for any opinion, advice, information, or statements made by third parties, including creators. Projects on Kickstarter do not claim to diagnose, treat, or cure any medical condition. The Creator is solely responsible for complying with industry standards and applicable laws, including product safety standards.

Use of AI

I plan to use AI-generated content in my project.

What parts of your project will use AI generated content? Please be as specific as possible.

I use AI-generated images for the marketing visuals and promotional banners of this project (main campaign image, social media posts). The Ziou's Gym app itself, its code, workout content, exercise library, and all functional features were created entirely by me without AI. The app screenshots shown are real screenshots of the actual working application available at ziousgym.com.

Do you have the consent of owners of the works that were (or will be) used to produce the AI generated portion of your projects? Please explain.

The AI-generated images were created using ChatGPT/DALL-E image generation tools (OpenAI). As the creator/prompter of these images, I own the usage rights to the output generated from my prompts per OpenAI's terms of service, which allow commercial use of generated content. No third-party artists or copyrighted works were used in the generation of these images.
