Story

Hitch is a online application based service that has the aim to make backpack travelling seamless, comfortable and most importantly safe for everyone.

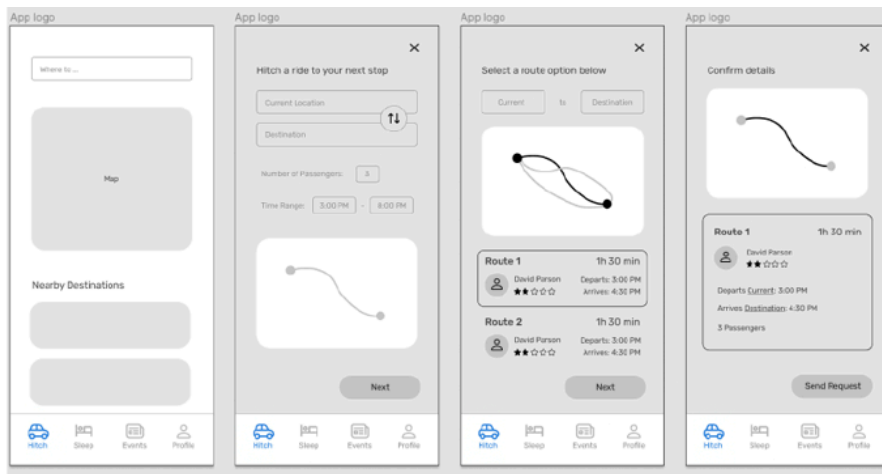

Funding period

Aug 13 2022 - Oct 10 2022 (58 days)

Travelers will be able to hitch rides as well as use the features like hosting, guests, rides etc. with almost zero dollars. With extra features of creating and joining various social events, travelers will be able to give rides and host other backpackers as well.

I have attached a demo of one of many features of Hitch here.

Hitch is aiming for a low cost travelling but with no compromise in safety and comfortability.

What's in for the guest that uses Hitch?

- Guests will get to travel at the cheapest cost
- Guests will get the benefit of choosing their hosts based on other users' reviews
- Guest will get to choose their preferred routes

What's in for the guest? What's in for the host?

- Hosts will get extra reward points
- Hosts get to choose who they want to invite
- Hosts get to listen to all of the cool stories of their guests

Risks and challenges

Challenges that Hitch have to face is trust building. The features that Hitch is providing is based on user quantities. The more the users, the better Hitch will be able to serve its customers.
