Story

Who knows you better than yourself? Nobody!

Funding period

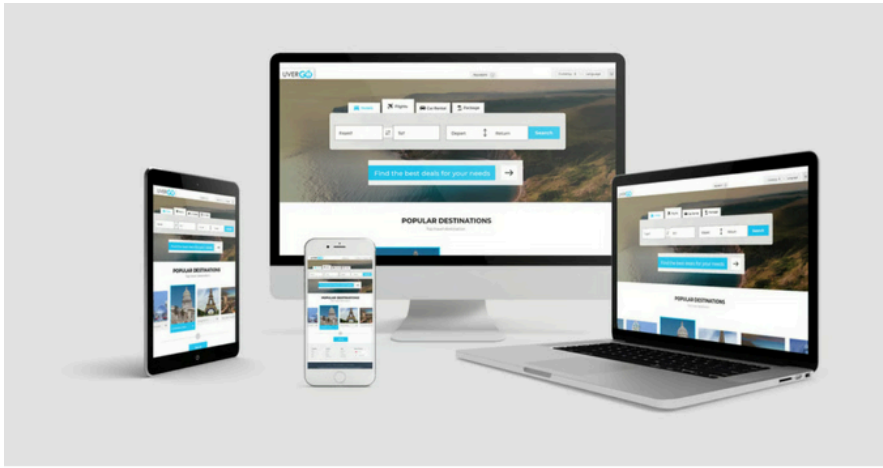

Jul 3 2018 - Aug 10 2018 (38 days)

Start enjoying the freedom and excitement of travel based completely on your terms!

Uvergo is the very first online platform that makes booking your own flights, hotels, activities or package deals a simple, fast and a uniquely customized experience based on YOU.

This means...

- **No** more unrelated travel deals that don't fit your personal needs.
- **No** more awful booking experiences that leave you frustrated.
- **No** more wasting time and money on trips that never fully satisfy.

Prototype

We don't want to build just another typical travel platform like all the others. We want to build the very first platform that will let travelers have personalized experiences without needing a travel consultant.

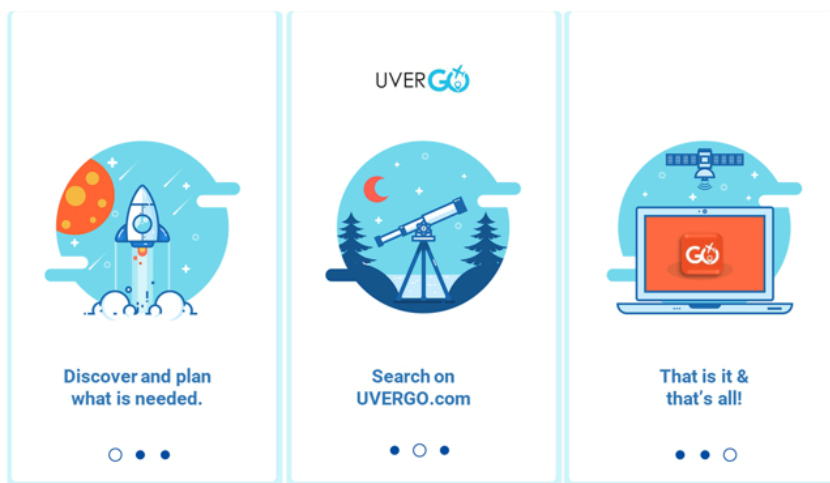

A place where we are all going to find offers that are only relevant to our interests/lifestyle.

If you are a traveler who had struggled with anything travel booking related and feel like there are big improvements to make out there, then Uvergo will be perfect for you.

We want to not only make Uvergo a reality with a little help from you, but we want to make it one of the most unique, powerful and easiest travel platform in the entire world.

We know what Uvergo's concept is fully capable of, and we can't wait to share it with you. You're going to love it as much as we do.

Why Typical Online Travel Booking Websites Fail?

The main disadvantages of online travel booking these days all come down to the lack of custom personalization and inefficient travel booking experiences.

According to a study made by Expedia in 2015, travelers visit on average 38 sites before booking. **38!**

Do you know why these people have to search so many travel booking websites?

Because there are way too many websites to visit out there and no complete solution that can match the exact needs and desires that they are looking for when it comes to the travel experience they want the very most. It's really that simple.

That's pretty frustrating, isn't it? We're sure you can relate.

But luckily for all of us, those endless searches and frustrations are about to become a thing of the past. My experienced team and I are going to forever change the way you ever search for travel deals ever again. And you're going to be blown away by it.

No need to spend days trying to find "The Perfect Travel Deal" anymore online. We're about to make it fast, simple and fully customized to YOU.

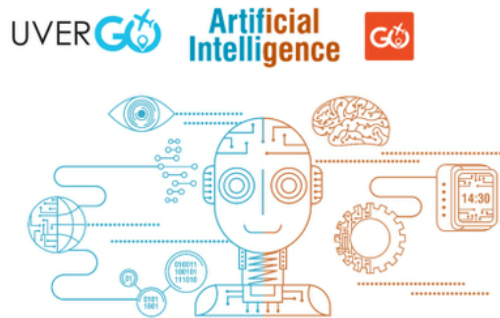

BENEFITS

Let's face the real truth for a minute...

Planning and booking that most perfect trip can become complicated and frustrating very quickly.

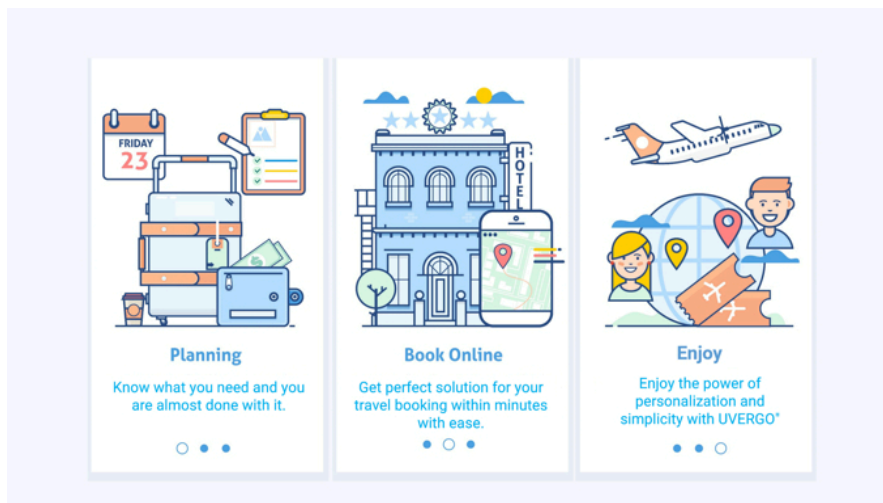

Understanding what a traveler really *wants and needs* is still at the very heart of the person in question.

When you use Uvergo to plan and book your own trips, you'll be working with **highly intuitive artificial intelligence (AI)**, that will fully understand what you need in a way that no travel agent or actual website can.

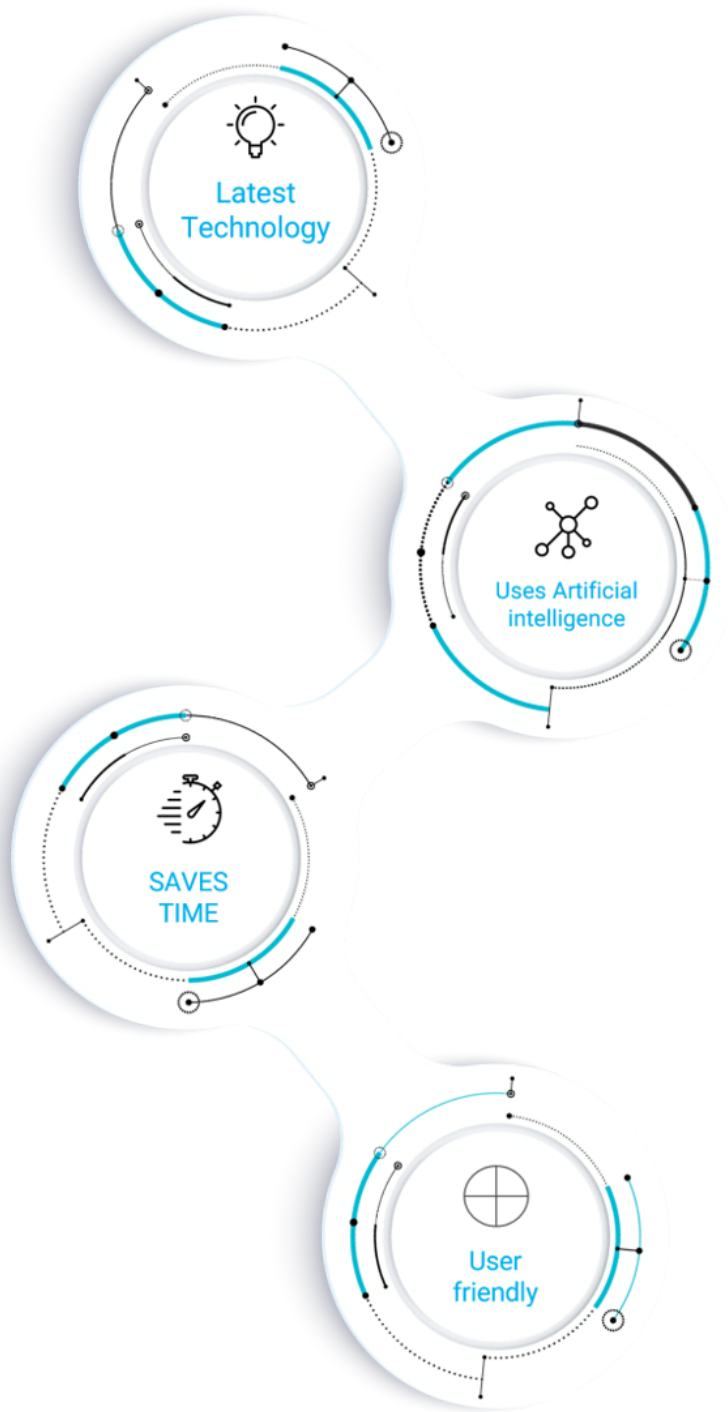

Using powerful predictive search tools, Uvergo will quickly make relevant suggestions based on your chosen preferences. A match between human and AI is a perfect match made in travel heaven!

It's like having a second brain or having the most intelligent friend that's always ready to recommend and find you the best things for you simply because they know exactly what you like! This makes everything work so much easier, more accurately and efficiently, and with way fewer hassles.

This is exactly how Uvergo will greatly benefit you. And once you use Uvergo once, you'll never want to use another typical travel booking website ever again.

Have you ever wondered what your life would be like if you had ONE easy-to-use platform that could find travel deals that fit perfectly your needs?

Here are some of the biggest benefits you'll enjoy when using Uvergo:

- Make your travel planning way more **comfortable and easy**.
- **Save more time** so that you can do more important things in your life.
- Help you discover and book **perfect trips** EVERY single time.
- Give you back **full control** over the exact trips that you want.

- Do it all thanks to **one simple and easy website** only.
- Enjoy all the benefits listed above plus so much more.

The era of boring and time-consuming searching for the best travel deals on your very own is finally coming to an end.

UVERGO	OTHERS
✓ Find travel deals that perfectly fit you.	✗
✓ Better user interface without any clutter.	✗
✓ Uses advanced Artificial intelligence.	✗
✓ Only presents important information.	✗
✓ Saves more time and money.	✗

Why not let Uvergo do it all for you (based on YOU!), and enjoy the best travel experiences of your entire life?

All it takes are **3 simple steps** to experience the world the way it was meant to be experienced: *book your trip, pack your luggage, and go see the world!*

01 | 

EASY & PERFECT

Get everything you need in all platform easily discover the perfect option for traveling anywhere.

02 | 

SAVE MONEY

Instantly discover the best deals and save money

03 | 

SAVE TIME

Our easy to use user interface will make sure you get perfect deals in less time

WHY KICKSTARTER?

Platforms like these are much more complicated than they look and we want to get this right. At this point, we have a lot of works that has been done which means we're almost there. With one big final push, we can get this platform to those who want it as bad as we do.

For that to happen, we need capital so that we can afford all the costs related to the creation of it!

It's essential that early-adopters and travelers are involved in shaping the future of Uvergo. Through Kickstarter, we can build this together.

STORY

only the type of results that I want. Travel booking results that were clear and relevant to what I need – no extra information. And, a website with absolutely no sidebar adds or popups.

I knew that there was a huge gap in travel booking. There was nothing for regular people like me who just wanted a practical site to find the best deals and make vacation prep easier without getting pissed off by the lack of simple, clear, and uninterrupted information on the best deals.

In short: I needed UVERGO.

That's why after this long journey, I founded Uvergo in December of 2017 to replace the current travel booking experience for those who want to cut the crap out of the bad travel booking experiences. After months of hard working and a lot of research, I came out with a well-structured idea that actually makes sense and that is ready to be shared with the world.

Dedicated to easing of use and personalization, Uvergo was created with real travellers in mind.

There is a lot more to it

UVERGO features a simple interface with completely customizable travel search settings so everyone no matter what they're looking for, from a family looking to book their next vacation to a student wanting to travel to an exotic new place with specific needs, intentions and affinities, can find exactly the deals they need without having to scroll through pages of unrelated booking results that they used to have to spend hours sifting through. The booking information on the site is short and to the point, including necessary information and nothing else so you can just get back to your life. And, guess what?

UVERGO has no ads of any kind – EVER.

A revolutionary new travel site that is breaking the old travel booking mold and paving the way for the next generation of travellers.

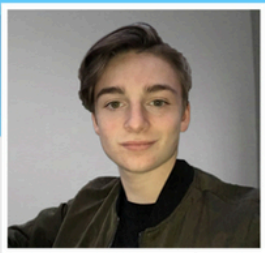

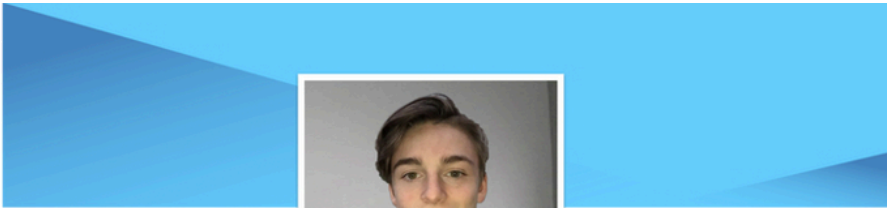

Don't miss this opportunity to FINALLY experience the

freedom of travel booking on your terms and support us to realize our dream project that will revolutionize the way we travel the world.

CONTACT US

For More Information

Do You Have a Question or Concern? No problem. You can get in touch with us, using Kickstarter's messaging service or via email at contact@uverso.com - Loïc Quirion. I will be available around the clock to respond to any questions or concerns you may have regarding Uverso.

Risks and challenges

Getting a platform with the functionality we want isn't easy. We're dealing with a lot of moving parts, from research, design, development, to usability and more. There are always setbacks when developing technologies.

However, one of the risks we foresee is the delivery date to the general public.

We can give no exact date at this time as to when you will receive this functionality as it will depend on the success of our beta testing and the feedback received during the beta phase.

We will do everything possible to give your backers clear and realistic launch dates as soon as all the information becomes available.

And rest assured, ALL the perks will be delivered on time, as stated.
