## Story

**We provide business self-analysis and tools to the entrepreneur of small and medium enterprises – saving time and money – AND they need to know about them. They can save from \$2,000 to \$25,000 right away. Here is how and why.**

**HELP US PROVIDE IMPROVED AND BETTER TOOLS TO 95% OF SMALL AND MEDIUM ENTERPRISES (SME) ONE CITY, ONE STATE / PROVINCE AT A TIME.**

**95% of Small and medium enterprises provides jobs on the marketplace – roughly 25,000,000 enterprises in North America alone.**

- Starting a business is hard ! 80% fails within 5 years ! And they lose a lot of time and money.
- There are lots of elements to look at and it's easy to miss important aspects.
- How do they know where they are at with their enterprise? Most entrepreneurs have no spare time and small budgets.
- If they are already doing good, how do they know if they will remain good

### Funding period

May 19 2015 - Jun 13 2015 (25 days)

and on top?

- Or if something is not working and they don't have much money to hire a consultant, where should they start first? What steps?

ProMaxScore Enterprise Booster is a key starter tool that will help answer all these questions. It's a rated self-analysis tool. They answer 145 questions, broken down into 6 categories. They rate each question, each category and they get an overall business score and action plan. Maybe they have great operations but they need work in sales. Maybe they are doing good overall and should start thinking ahead.

## 6 Enterprise Sectors

## THE TOP CHALLENGES FOR THE ENTREPRENEUR:

One of the gurus of the industry of the SMEs, Mr. Phillipson, also supported by various private and public agencies such as Industry Canada, have identified and documented some major challenges of the SMEs, being:

- (A) lack of INFORMATION on what works and does not work in the enterprise
- (B) lack of PLANNING to solve the real problems
- (C) lack of ability in MANAGEMENT
- (D) lack of FOCUS on the real issues

(E) POOR PROCEDURES

(F) lack of TIME AND CAPITAL

(G) lack of TIME-SAVER AND COST EFFECTIVE TOOLS to identify and measure performance (our experience reveal this one).

Our 4 initial tools help cover most of those elements.

## OUR SOLUTIONS:

4 TOOLS THAT ARE ALREADY FULLY DEVELOPED AND OPERATIONAL - in Excel or Word.

### ONE: ProMaxScore Enterprise Booster

In Excel - easy to use, 145 questions which generates not only a self-diagnostic on the operations of a company, but which gives an action plan summary appropriate to bring possible solutions.

| 10 | SALES – OPENING BOLD STATEMENT |
| 11 | SALES - ALIGNMENT              |
| 12 | SALES – ACTION - CLOSING       |
| 13 | POST SALES – FOLLOW-UP         |
| 14 | PERFORMANCE MEASUREMENTS       |

## OUR VISION

## THE WORD NEEDS TO GET OUT !

We want to start with a pilot project - one major city (Greater Montréal area). Approaching each Chamber of Commerce (young entrepreneurs, men, women, etc.), business organisations and associations, city business registrations, attending fairs, maintaining a site and mailing lists - thus creating a model to multiply for each city, state/province.

We also want to develop other tools that are more specific to help more businesses (like restaurant, starting a business, clothing retail, home base businesses). And we would like to adapt the tools for the iPhone, Android, Tablets, etc. We have already the basic tools developed and operational in either Excel, Word, PDF – and we can use it as a base.

\$20,000 – This would be the first city – the Greater Montreal Metropolitan, QC, Canada.

\$50,000 – We would add the Greater New York Metropolitan area, NY, USA and 3 specific categories of businesses (could be restaurant, starting a business, clothing retail, home base business)

\$100,000 – We would cover the full province of Québec and New York State – and provide adaptation to iPhone and Android phones and tablet.

\$500,000 – Full Canada and USA.

**BUT IN ALL CASES** – we want to make the electronic PDF version available FREE as an educational tool to every business possible we come into contact first as an educational and reference tool – with the expectations that some businesses will buy the Excel and Word version of our products. In some cases or to organisations like a library, non-profit organisations we will make all our tools available free of charge.

**OUR FIRST PRIORITY – NORTH AMERICA - then THE REST OF THE WORLD**

**A PDF VERSION TO EVERY ENTERPRISE AND BUSINESS INSTITUTION, EVERYWHERE**

**IN AS MANY TECHNOLOGICAL PLATFORMS AS POSSIBLE**

**No matter how much we raise, we promise that every dollar you pledge will bring ProMaxScore to more people, more platforms, and provide it for free in more educational and business circles.**

We can make sure that millions entrepreneurs learn to love businesses, but we can't do it without you. That's why I hope you'll join me in making a difference!

## Risks and challenges

The real risks and challenges we face don't lie in completing this project - it's all developed. But in communicating it to the entrepreneur.

If we raise our minimum funding goal, we do not anticipate ANY significant challenges or risks in completing the project. The 4 initial products are already developed and ready to be known and used (in English and French).

As with all Kickstarter projects, there is always a risk of delay in delivering some of the rewards, but we've been careful to give ourselves MORE time than we think we'll need – so we hope we'll have some, or all, of the rewards out SOONER than listed.
