Starting a Prayerwalking Movement!

To develop an app to track and post prayer walks on-line, so people can easily track what's been prayed through and how recently.

Story

Ed Silvos said, "For far too long, we have left control of the spiritual climate in our cities in the hands of the devil." Ed believes we can change that. I know we can change that. We just need to cover our communities in prayer, and the god of this age will no longer be able to blind the minds of unbelievers and so keep them in the dark. Imagine every street in your community, prayerwalked every month. It can happen. We can see a dramatic and significant new openness to the Gospel! It's time to realize that. That's why we created www.prayerwalking.ca - a website that works anywhere in the world to allow you to log your prayerwalking routes and instantly see what part of your community you've prayed through. Best of all, as time passes, those routes get lighter and lighter. So you can know how recently it's been prayed through. But even better than that - if your community is sponsored, EVERYONE can see the state of the prayer canopy over your community in real time as you work together with others to cover it in prayer. It's a great tool and we've had great response to it since last August when it launched. But we want to make that tool much easier to use. We've know that if we only had a smartphone app, people could simply push a button and let their phone track where they go, and with one more push after walking they could upload their prayerwalk to the site automatically. This kickstarter campaign is to raise the funds needed to do that. That's why we need your support. We have a developer lined up, our website folks are all ready to integrate the app, but we just need the funds to see it happen. We need 20 thousand dollars to see an iPhone and Android app developed, debugged, and released. We believe we can do that by next summer. If you pledge toward that goal, we'll give you an early release of the app as we finalize it. If you pledge 50\$ or more, I'll send you a copy of my just published first book, "Beginnings - growing in prayer through Genesis" as well. I know it'll be a refreshing look at prayer and a help to you. If you pledge 100\$ or more, I'll send you a signed copy of the book, and if you pledge 250\$ or more, we'll put your community (which is a 3km or 2mi radius) on the site right away after the campaign ends. Will you help us? Pledge now!

Funding period

Jan 14 2016 - Feb 21 2016 (37 days)

Risks and challenges

We're expecting that the iPhone app will take about 3 months to develop and get through initial debug (we'll send you a link to it at that point). Then, we'll need another 3 months to more fully debug through actual trials (we'll hope to do that with your feedback). Shortly after that we'll have an Android app available. If we can do it faster, we will!
