Story

Help Me Marvin – The Life Hacking Club

Your Mentor. Your Movement. Your Moment.

Why This Matters Now

Every breakthrough starts with a decision.
For most of us, that decision never comes — life just... happens.

But what if you had a mentor in your pocket?
One who knew your goals, your habits, your dreams — and guided you daily to live them?

Meet Marvin — your AI-powered life hacking mentor — launching alongside *The Life Hacking Club*: a global movement of doers, dreamers, and disruptors determined to live deliberately.

We're not building *another app*.

We're creating the **world's first Life Hacking Club**, blending AI coaching, community challenges, and real-world events — all fueled by people like you.

The Gap We're Closing

We live in an age of unlimited information and zero direction.

- 80% of goals are abandoned in the first month.
- Online courses have a completion rate of under 10%.
- Most self-improvement tools fail because they're passive, impersonal, and disconnected.

The missing link?

A **mentor + movement** that actively pulls you forward every single day — and holds you accountable.

Funding period

Aug 14 2025 - Sep 1 2025 (18 days)

Marvin + The Life Hacking Club

Marvin isn't just AI — he's your *personal life strategist*.

- He learns how you work best.
- He holds you accountable.
- He connects you to a **community of achievers** working alongside you.

Together, we've designed **The Life Hacking Club** to be:

- ✓ Interactive – Daily challenges, group sprints, and live sessions.
- ✓ Personalized – AI + human mentors who adapt to you.
- ✓ Global – Meet members online, then in-person at flagship events like our Las Vegas NYE Bash.

Why Kickstarter – Why Now

We could wait to raise venture capital.

We could keep Marvin locked away until we had "perfect traction."

But that's **not our style** — we believe this belongs to *founders like you*, not just investors.

Kickstarter lets us:

- **Launch faster** with our first community-funded build.
- **Reward early believers** with perks no one else will ever get.
- **Prove demand** before scaling to the masses.

Meet the Founder – Daniel Morel

"I've always believed life is something you hack, not something you let happen to you."

I'm **Daniel Morel**, and my journey has been anything but linear.

From building teams that defy the odds to launching ideas on nothing but grit, I've learned one truth over and over again:

Your environment is everything.

Surround yourself with the right people, tools, and accountability — and you can move mountains.

I built *Help Me Marvin* and *The Life Hacking Club* because I know what it's like to want more... and not know exactly where to start.

I've seen too many talented people stuck in cycles of "someday," waiting for the perfect time, the perfect plan, the perfect push.

That's why Marvin exists — to give that push daily.

That's why The Life Hacking Club exists — to make sure you never walk the journey alone.

This Kickstarter is my way of saying:

"Let's stop talking about what's possible and start building it together — right now."

What You'll Get – Backer Rewards

We've built tiers that give you more than "stuff" — they give you *status, access, and transformation*.

- From **Unlimited Membership** to private coaching...
- From a **VIP Vegas NYE Bash** to a **Founder's Dinner**...
- These are once-in-a-lifetime experiences that cement you as a *Founding Member*.

The Impact – Beyond the Perks

When you back this project, you're doing more than funding an app.

You're helping:

- Launch a global club designed to elevate personal growth.
- Give early members the tools to live deliberately and lead others.
- Build a **movement** that blends digital mentorship with real-world connection.

How We'll Use the Funds

Our goal: **Launch Beta 1 by Sept 1.**

Funding will cover:

- Development & testing of the Marvin platform
- Club onboarding & community features
- Hosting our early flagship events
- Building the affiliate ambassador network to scale globally

Why You – Why Us

We're inviting *you* to join the founding circle because we believe you're the type who doesn't just watch history —

you make it.

By backing today, you're planting your flag in the ground and saying:
"I am part of this. I built this. I led this."

Join us now.

Be the reason The Life Hacking Club exists.

Claim your spot, claim your perks, and let's build this movement together.

Risks and challenges

Launching The Life Hacking Club and Marvin is an ambitious project, and like any new venture, there are risks. Here's what we see and how we're prepared to overcome them:

1. Timelines & Development

We've planned a clear production schedule leading from Kickstarter funding to Beta launch (September 1). However, unforeseen delays in design, development, or integrations could occur. We're mitigating this by using proven, rapid-development tools and a lean build process so we can pivot quickly if needed.

2. Event Logistics

For tiers that include travel and in-person experiences (such as the Las Vegas New Year's Eve Bash), changes in venue availability or unforeseen restrictions could arise. In that case, we'll secure alternative venues of equal or greater value and keep all attendees informed well in advance.

3. Scaling Community & Support

We expect strong interest from backers. Rapid community growth can strain onboarding and support systems. To address this, we're implementing scalable onboarding processes and recruiting ambassadors early to ensure a smooth, personal welcome for each member.

4. Platform Policies & Compliance

We're mindful of Kickstarter's rules, legal requirements, and payment provider policies. All perks and rewards have been reviewed to ensure

compliance so backers receive exactly what's promised.

We're fully committed to delivering on every reward and building a platform that makes our founding backers proud. By pledging, you're not just funding a project — you're joining a movement, and we'll keep you updated every step of the way.

Use of AI

My project seeks funding for AI technology.

- ✓ For the database or source that I will use or will create, the consent of the persons whose works or information incorporated have been obtained.

I plan to use AI-generated content in my project.

What parts of your project will use AI generated content? Please be as specific as possible.

Some campaign assets, visuals, and copMarvin uses AI in the product itself to deliver personalized coaching and liy may include AI-assisted elements to enhance creativity and storytelling.

Do you have the consent of owners of the works that were (or will be) used to produce the AI generated portion of your projects? Please explain.

All AI-generated portions of this project are created using licensed AI tools (e.g., OpenAI, HeyGen, Midjourney, Sora) that are contractually permitted for commercial use. We ensure that any training data or reference materials are either: Original works we created, Public domain content, or Assets we have licensed or have clear rights to use. We do not use unlicensed third-party intellectual property without permission, and we follow the terms of service of each AI tool provider to ensure our work respects copyright and intellectual property laws.

I am incorporating AI in my project in another way.

Marvin uses AI in the product itself to deliver personalized coaching and life-hacking guidance.
