Awesome platform for real estate agents daily activities

We are creating an awesome platform for each real estate agent to have his/her web presence, that is connected to their social media.

Story

We are a group of people from all walks of life developing the platform for Real Estate Agents to assist them with their day to day activities and their online presence. The platform is suitable for new agents as well as experienced agents. It offers websites that have modern clean look that attracts visitors and give them a feeling of being home. The web platform is extremely user-friendly. Agents will be able to build their websites in minutes!

It will help agents to stay in touch with their clients and get more business by sending e-cards, email blasts, drip campaigns and their listings updates. It will attract more leads by sharing listings via Facebook, Twitter, LinkedIn with the click of a button. The platform will manage all agents' contacts, calendar entries, tasks and keep them in one place while synchronizing them across all mobile platforms. It will get agents' website leads instantly with contacts database integrated with their website. The platform will be fully integrated with Real Estate Boards and modern listings map, showcasing Agents' listings.

We launched an initial version of our platform and are getting some awesome feedback. Please help us finalize our platform by making it successful and commonly adopted by Real Estate Agents everywhere.

Funding period

Nov 14 2014 - Dec 14 2014 (30 days)

Risks and challenges

Our management group consists of people with very relevant experience in Real Estate industry, Marketing, IT Development and Sales. We cover every aspect of developing, marketing and sales process taking this product to the market. We have been working on this project for the last two years and constantly working with Real Estate Agents learning their unique buying preferences and decision making process.
