Story

Development of a mobile app to prepare for certification exams, with the use of flashcards.

Professional choices - ITIL Foundation and ITIL Intermediate Suite of Courses, PMP, CBAP, CISSP, etc...

Can sell a one time download, or a variety of monthly, quarterly or yearly subscriptions, with updates. Can also offer a variety of packages for multiple exams, as well as a variety of packages for number of flashcards.

Would like to also add the offer of the app to students of our courses, as an added-value.

We will add many more certifications as we grow the market.

We will also look to offer licenses to other training providers.

Funding period

Feb 1 2016 - Mar 2 2016 (30 days)

Risks and challenges

Need to have the right technical team in place to eliminate or reduce technical difficulties.

Could have delays

Strong testing to avoid, or minimize bugs

No similar products on the market right now, so speed is of the essence

Not enough funding could halt the project

Need to make sure we can supply large volume of demand
